

I am writing concerning the LPFM being considered that could possibly take away the station K-Love located on the FM station 106.7. I feel K-Love is a very important radio station to my community because it offers a family oriented station with good clean broadcasting that is not heard on many other stations. I feel it would be devastating to my community and myself if I were to loose the priviledge of listening to this station. In fact it is the only station that I listen to in my household. K-Love is a good clean Christian radio station that offers the community so much and I hope the station will continue to be transmitted into my area. Thank you in advance for your reconsideration in this matter.

Sincerely,  
Johnsie G. wiley
